**INFORMATION DISCLOSURE STATEMENT**

This is an Information Disclosure Statement filed in accordance with 37 CFR 1.98.

Attached is a Form PTO/SB/08 identifying each of the five (5) references cited in the International Search Report, copy enclosed, issued by the European Patent Office on December 3, 2004, in connection with the above-identified International application. The relevancy of each of the references with regard to the originally filed claims of the International application is indicated in the Search Report.

No copy of any of these identified references cited in the International Search Report is enclosed since copies are presumed to already be in the file due to having been forwarded by the European Patent Office as a result of an existing treaty. However, if no such copies of the references are in the file and a copy of one or both of these references is desired, please request a copy of the desired reference from undersigned counsel and it will be supplied.

The attached Form PTO/SB/08 additionally identifies foreign references DE 198 52 375 A1 and JP 112 55 087 A, which are discussed on page 1 of the present application where their relevancy is explained. Copies of these references, the Japanese reference in English computer translation, are enclosed. An English-language abstract is attached to the German reference.

Since all requirements for the filing of Information Disclosure Statements have been complied with, it is requested that the Examiner consider all of the identified references and indicate such consideration by enclosing a properly initialed copy of the enclosed Form PTO/SB/08 with the initial Office Action.

Respectfully submitted,
